REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Prior art of record does not teach of the independent locking and unlocking function of an inside and outside of an vehicle as claimed in claims 1 and 3. The closest prior art, the references of Silye (US 5584515 A), and Johnson et al. (US 6045168 A) both teach of the locking and unlocking of the outside being independent of the inside, but mechanically the inside is locked and unlocked dependent on the lock state of the outside.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Pertinent Prior Art

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The reference of Kleefeldt et al. (US 4974886 A) teaches of a typical double locking system and the reference of Kurozu et al. (US 5293160 A) teaches of a prior art remote locking system.
